

MADE IN JAPAN

DAIWA RABIN

来自「易切割」「易研磨」「高耐久性」的弹性橡胶磨头的 Daiwa Rabin!

研磨抛光用的橡胶磨轮片!

高阶版登场  
【公司同类产品对比】  
Fine grits released

Grinding, Polish and Last long Elastic rubber grinding stone: Daiwa Rabin  
For polishing offset rubber grinding stone

# RNF DISC

最高使用回转数 Maximum rotation speed

**13,000rpm 68m/s**

推荐回转数 Recommended rotation speed

**7,000~8,000rpm**

对应机种  
电动圆盘磨床  
Power Tools  
Angle grinder

# Rubber - 橡胶

虽然它是橡胶磨轮片，但它就像是用无纺布作业那般轻轻碰触便可对用品进行研磨。  
Rubber but feel like non-woven fabric

# Nonwoven fabric- 如无纺布那般

# Feel - 触感

RNF系列 新发售!  
NEW! RNF series

### 用途 Application

抛光

除刀纹·除锈

去毛刺

去除涂层·去除电镀层

去除焊缝痕迹, 残渣

其他研磨用途

Shiny finishing

Removing scratch and rust

De-burring

Removing plating & painting

Removing welded beat

Polishing

### 適用材料 Materials

从锈铁, 钢铁, 不锈钢到铝, 铜等非铁金属, 再到玻璃, 陶瓷, 可作业于范围广泛的素材。

From Cast iron, Iron steel, Stainless steel to Aluminum, Copper, non-ferrous metal, and Glass, Ceramic. Cover wide range of materials

### RNF的特征 Features

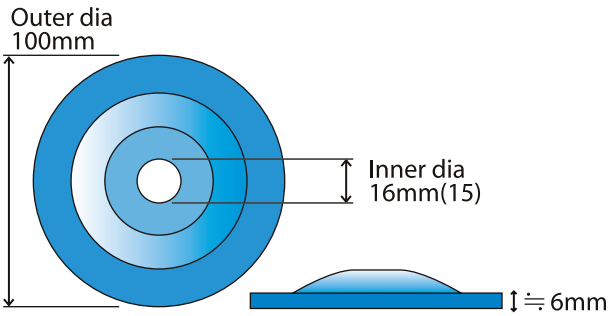

- 优异的切削性能缩短研磨作业的时间  
Minimize process due to excellent cutting quality
- 轻轻接触研磨工作  
Can be aligned with the work piece
- 独特的设计防止烧伤表面  
Original design can prevent burn
- 最适合于卫生相关設備  
Suitable for sanitary equipment

φ 16→15 Adapter enclosed  
配有互换的衬套 φ 16→15

- 不易间断, 使连续作业变得可能  
Operate continuously without worry about clogging
- 不留痕迹的研磨面  
Polished surface without polishing mark after buffing
- 无需清楚残留的油脂磨料  
No need to clean remaining of polishing compounds and rouges
- 大幅度降低粉层, 噪音  
Power dust and noise can be reduced

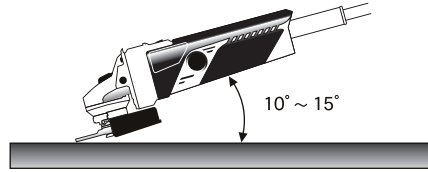

## 规格 Specification

Item No.	Type	Grain	Grit	Size
18067	RNF	GC	400	100-6 -16(15)
18068	RNF	GC	1000	

请装在角磨机上使用。请不要以陡峭的角度使用磨片，而是以稍微倾斜的角度(10-15度)来操作。

Use with an angle grinder. Operate in low-angled (10 to 15°) not in steep angled.

⚠️ 请注意！ / Attention!

请不要忘了安装上附带品衬套后再使用。  
Operate with an enclosed adapter.

⚠️ 危险性 (使用上的注意事项) / Dangerous

橡胶弹性与一般弹性大不相同，其特征在于它会根据负荷而变形并且变形量会很大。如果像一般的磨头或切削工具那样使用的话，则会非常危险。请严格遵守最高使用回转数这个限制条件。请不要擦超出这个负荷。

Rubber elasticity is very different from general elasticity, which is characterized by deformation according to the load as well as a high amount of deformation. Therefore, handling the Daiwa Rabin as a general grinding stone and cutting tool can be very dangerous. Operate your devices at the speed less than the maximum r.p.m. Take care not to apply too much load.

## 什么是弹性橡胶磨头「Daiwa Rabin」 An elastic rubberized grinding stone "Daiwa Rabin" is ...

### 特征 / Features

- 「易切割，易研磨」橡胶磨头...  
这正是 Daiwa Rabin 的特征。  
"Cut, Polish" This is feature of Daiwa Rabin
- 间断，耐久性差...  
等等橡胶磨头的缺点已被解决，  
这正是 Daiwa Rabin 的优异性能。  
Clogging, Durability... Overcome weakness of rubber stone due to excellent performance of Daiwa Rabin
- 超过 18000种，  
匹配不同工作场景・作业内容的品类  
Items over 18,000 according to work piece and operation details
- 深受来自世界上30多个国家的用户的信赖。  
Used in more than 30 countries, which is a sign of trust

产品 Line up!

👉 首先请尝试一下！  
我们会提供测试用的样品。  
欢迎咨询。
